Introduction

IT-ES605-IM-2F-2D(RS-485) Industrial Ethernet switches integrated serial device server function, it adopt SW-Ring redundant technology (Recovery time <20ms), users can set the redundant easily to increase network reliability, furthermore, IT-ES605-IM-2F-2D(RS-485) can support 2 ports RS485/422, AT command and alarm output. It adopted no fan, low power consumption design, IP30, corrugate high

strength iron shell, the performance is more steadily. It accorded with CE, FCC standard and Industrial 4 grades, DIN rail installation and wide operating temperature (-40~75°C), it can satisfied some kinds of industrial environment, it can provide reliable and quickly solution for your Ethernet device.
