Introduction

IT-IPS-618-IM-8-POE is an industrial grade, managed and redundancy Ethernet switch. The switch provides 8 ports 10/100M Ethernet, which 8 ports Ethernet supports POE function (IEEE802.3af/at). It provided some kinds of advanced network managed function, like as: SW-Ring redundancy ring network,

VLAN, Trunking, Quality of Service, Speed control, port mirroring and fault alarm. SW-Ring can bring your Ethernet to intelligent redundancy. The $-40 \sim 75^{\circ}$ C working temperature can meet all kinds of Industrial environment requirement and provide the solution of the economy.
